## [WG-IDAssurance] Instructions To Submit Comments on How NIST SP800-63 Revision 3 Could be Revised

---

Ken Dagg &lt;kendaggtbs@gmail.com&gt;

Thu, Jul 16, 2020 at 1:46 PM

To: IAWG &lt;wg-idassurance@kantarainitiative.org&gt;, Kantara WG HealthIDAssurance &lt;wg-healthidassurance@kantarainitiative.org&gt;, arb &lt;arb@kantarainitiative.org&gt;

All,

***This is a resend as some people did not receive it.***

As I promised in the email I sent last Friday, please use the following structure to submit your comments on how NIST SP800-63 Revision 3 could be revised by NIST to develop Revision 4 of the Guidance:

Volume Identifier (All, Overview, A, B or C)

Section Identifier (Number AND Name)

Sub-Section Identifier (Number AND Name)

Line number

Comment: Be as specific as possible. If relevant, provide references to other jurisdictions to justify your comment.

Suggested Revision: Provide suggested text if possible.

As the documents on the NIST website do not have line numbers I have attached PDFs of all four documents with line numbers. Please use these documents as reference for your comments.

If I am unclear about any of your comments I will request clarification from you.

I will compile all comments into a list, tagged with your name, for discussion by IAWG. Once IAWG reaches consensus your name will be removed.

As I also said in Friday's email, in order to allow Kantara members a couple of IAWG meetings to reach consensus prior to NIST's August 10th submission deadline, comments MUST be submitted by 5:00PM EDT on July 26th. Consensus meetings will be held on July 30th and August 6th.

Thanks in advance for your input,  
Ken
