What is IDPro?
A place for professionals to learn how to make their programs and projects more successful.
A place for professionals to learn how to grow their own careers.
An independent voice that extols the value of IAM as a partner, equal to both security and privacy, as well as a crucial partner for customer delight with our lines-of-business.
IDPro helps define, support, and improve the digital identity profession globally
IDPro facilitates identity practitioners interacting with, learning from, and giving back to their professional community
IDPro enables identity technology and service providers to interact with identity professionals in thoughtful, respectful, and valuable ways.
IDPro provides a collective voice for the digital identity and access management industry to policy makers
