UMA Version 2.0 specs are approved by the WG as final Draft Recommendations!

The Work Group has completed the process of implementing edits to the specifications as a result of the Public Comment/IPR Review period, and have approved the edited specs as Draft Recommendations and forwarded them to the Kantara Leadership Council for next steps towards finalization as Recommendations. You can see a summary in our [Disposition of Comments](#) document. See [UMA 2.0 Grant for OAuth 2.0 Authorization \(UMA Grant rev 08\)](#) and [Federated Authorization for UMA 2.0 \(FedAuthz rev 08\)](#).

Resources to understand more about UMA are available and growing. Don't miss the [slides](#) and [video](#) from **Authorization: Age of UMA**, the Introducing UMA 2.0 session delivered by two UMA coauthors at the Chicago Cloud Identity Summit (and stay tuned for the video). The [Release Notes](#) are complete except for Disposition of Comments content. The [UMA Implementer's Guide](#) is nearly complete. Also see these [UMA Grant](#) and [FedAuthz](#) sequence diagrams. If you're interested to help, we invite you to join the group! Fill out the [Group Participation Agreement form](#) to get going.
