Second comment period for UMA Version 2.0 specs

The **UMA 2.0 Grant for OAuth 2.0 Authorization (UMA Grant rev 08)** and **Federated Authorization for UMA 2.0 (FedAuthz rev 08)** specs are undergoing a second Public Comment/IPR Review period, from September 28 through November 12. Please see the [announcement](#) for details on reporting comments or Necessary Claims.

Resources to understand more about UMA are available and growing. Don't miss the [slides](#) and [video](#) from **Authorization: Age of UMA**, the Introducing UMA 2.0 session delivered by two UMA coauthors at the Chicago Cloud Identity Summit (and stay tuned for the video). The [Release Notes](#) are complete except for [Disposition of Comments](#) content. The [UMA Implementer's Guide](#) is nearly complete. Also see these [UMA Grant](#) and [FedAuthz](#) sequence diagrams. If you're interested to help, we invite you to join the group! Fill out the [Group Participation Agreement form](#) to get going.

User-Managed Access (UMA) is an [award-winning](#) OAuth-based protocol designed to give an individual a unified control point for authorizing who and what can get access to their digital data, content, and services, no matter where all those things live. Read the [specs](#), join the [group](#), check out the [implementations](#), follow us on [Twitter](#), like us on [Facebook](#), get involved!

The [UMA Roadmap for 2016](#) page guided the use cases and technical issues that the Work Group focused on in its UMA V2.0 effort. You can find other drivers in the Work Group's original compendium of [Scenarios and Use Cases](#), its [Case Studies](#) page, and its [User Stories](#) page.
