

UMA Trust Model

UMA Trust Model

Following are handy links to the UMA "trust model" spec, **Binding Obligations on UMA Participants**, and related materials.

Content	URL	Description
UMA Binding Obligations	http://docs.kantarainitiative.org/uma/draft-uma-trust.html	This is the pretty-printed latest version, available on the Kantara site. It may be more up to date than the version last contributed as an IETF I-D.
UMA Binding Obligations I-D	http://www.ietf.org/id/draft-maler-oauth-umatrust-00.txt	This is the latest version contributed as an IETF I-D. It may be out of date with respect to the version linked above. We don't submit I-D revisions for every little edit.
User guide	http://kantarainitiative.org/confluence/display/uma/UMA+Trust+Model+User+guide	Domenico Catalano's latest work on leveraging UMA in an actual deployed ecosystem.
Measuring elements of trust	Measuring elements of Trust	Domenico's early study analyzing the UMA trust proposition.
UMA on GitHub	https://github.com/xmlgrrl/UMA-Specifications	This is the GitHub repository for the spec and issues.
UMA issues	https://github.com/xmlgrrl/UMA-Specifications/issues	This is a direct link to the issues list.
Trust model info short link	http://tinyurl.com/umatrust	This is a short link you can use to direct people back to this page.
