

# 2018-12-06 Meeting notes (CR) DRAFT

## Date

2018-12-06

## Status of Minutes

DRAFT

Approved at: <<Insert link to minutes showing approval>>

## Attendees

### Voting

- [Andrew Hughes](#)
- Jim Pasquale
- Richard Gomer
- Mark Lizar

### Non-Voting

- Jan Lindquist
- David Turner
- Sneha Ved
- Sal D'Agostino
- Peter Davis
- Mary Hodder

## Regrets

## Quorum Status

Meeting was <<<>>> quorate

## Voting participants

[Participant Roster \(2016\)](#) - Quorum is 6 of 11 as of 2018-11-19

Iain Henderson, Mary Hodder, Harri Honko, Mark Lizar, Jim Pasquale (C), John Wunderlich (VC), Andrew Hughes (VC), Oscar Santolalla, Richard Gomer, Paul Knowles, Samantha Zirkin

## Discussion Items

Time	Item	Who	Notes
4 mins	<ul style="list-style-type: none"><li>• Roll call</li><li>• Agenda bashing</li></ul>	<a href="#">Andrew Hughes</a>	<ul style="list-style-type: none"><li>▪ Discuss what we should demo at EIC</li></ul>

5 min	<ul style="list-style-type: none"> <li>Organization updates</li> </ul>	All	<p>Please review these blogs offline for current status on Kantara and all the DG/WG:</p> <ul style="list-style-type: none"> <li>Director's Corner: <a href="#">2018: November</a></li> <li><a href="#">Work + Discussion Group Activity</a></li> </ul> <p>There is a wiki page that will hold all the known <a href="#">implementations of Consent Receipts</a> - Please update the page or inform Andrew of your implementation.</p> <ul style="list-style-type: none"> <li>TIIME, Vienna, February</li> <li>EIC, Munich, May</li> <li>Identiverse, Washington, June</li> </ul>
45 min	Product roadmap for the demo	All	<ul style="list-style-type: none"> <li>Target is EIC May 2019</li> <li>digi.me is considering doing the import/export functionality for January <ul style="list-style-type: none"> <li>suggests showing of functionality of the 'privacy dashboard' concept</li> <li>suggests showing a communication flow between person, controller and a processor - showing how changes to preferences are communicated</li> <li>will show demo to Jim of consent receipt spec new features of digi.me - these probably will go in the next release</li> </ul> </li> <li>Sphere Identity <ul style="list-style-type: none"> <li>3-party consent will be implemented and tested in January</li> <li>will have an end-end demo at EIC</li> <li>showing how data sharing and consent management works (data subject, data controller, Sphere)</li> <li>would need to add an 'export' function</li> </ul> </li> <li>Consentua <ul style="list-style-type: none"> <li>Focus on the interoperability aspect</li> <li>1) How do i combine multiple receipts into a single file? (zip, JSON format, etc) - to demo parsing packets of receipts - portability between dashboards</li> <li>2) How to make a CR actionable - how to check it, revoke it, mutate it, is it valid in the service that issued it - this would allow dashboards to become 'control panels'</li> </ul> </li> <li>Airside <ul style="list-style-type: none"> <li>Could use emulators to show mobile. Could also run and pause a video.</li> <li>Wants to speak about how CRs are used in their general aviation app - there are iPad/Android version</li> <li>Their data organization is information oriented, not privacy-first oriented</li> <li>The 'dashboard' feature for General Aviation might be the Passengers sharing their passport data to the Pilot for flight manifest compliance</li> </ul> </li> <li>OpenConsent <ul style="list-style-type: none"> <li>Power is in the 'proof' aspect of this - proof about what Notice was given <ul style="list-style-type: none"> <li>For consent, Notice is required, followed by an Agreement</li> <li>Consentua has the concept of 'provenance' - all the elements that went into the agreement.</li> <li>Andrew suggested using the word 'agreement' instead of 'consent' - nobody agreed 😊</li> </ul> </li> <li>This is 'consent by design' that demonstrates the increased quality of consent.</li> <li>Idea: if there was a bare 'notice receipt' (a subset of the explicit consent receipt) that could be powerful to keep track of where notice was or was not provided correctly.</li> </ul> </li> <li>What point of view should we demo? <ul style="list-style-type: none"> <li>From the person's perspective? (exercising data subject rights)</li> <li>From the data controller's perspective?</li> </ul> </li> <li>Demo of a Privacy Control Panel? <ul style="list-style-type: none"> <li>One interface showing where the person shared their information for processing</li> <li>The person can interact and change their preferences related to these information processing interactions</li> <li>The control panel operates on a more complete capture of the provenance of the consent interaction</li> </ul> </li> <li><b>Consensus reached - this sounds like the right concept for the demo - now we need to work on the details</b></li> </ul>
