Discussion

- Discussion of NIST IR Draft comments
 - Should NIST be writing this type of document? The objective of this document is intended to be a broad educational material document and there is risk that it might be construed as an SP
 - The intent of this publication needs to be better understood
 - The document does not appear to align to how current trust frameworks operate that are in operation and approved by bodies such as GSA
- Do we have a choice to not respond? Not really.
- Raise this discussion topic with the TFP coordination group and discuss if there could be a single response? or individual responses from each TFP and CSP?
- **ACTION: Andrew to discuss introduction of this discussion topic with the TFP group with Ruth**
