April 2017 OTTO Update

Docs are getting more ready. Here are some short links:
- http://gluu.co/otto-api
- http://gluu.co/otto-vocab
- http://gluu.co/otto-openid

Much of the content for the API spec exists on the OTTO Github Readme (https://github.com/KantaralInitiative/wg-otto) and in the Swagger interface. But it needs to be xml-ified.

This month, we're working on the OpenID, Badge, and Trustmark extensions.
