Approve minutes

- Approve minutes of UMA telecon 2019-02-21

MOTION: Andi moves to approve minutes of UMA telecon 2019-02-21: APPROVED by unanimous consent.

IETF presentation prep

- Eve to send around a draft

The OAuth WG has biweekly "virtual office hours" and Eve joined the last such meeting this week. She presented a bit about UMA2 by reviewing the Introductions of the two specs. The two OAuth sessions are going to be on the Monday afternoon and Thursday morning (this could change). We're hoping for a Monday presentation time. Maciej, Pedro, now Neil Madden, and possibly Andi are currently planning to go (this also could change).

We discussed and worked on the emailed slide deck draft. Let's plan to review in email and Skype chat. We have no meeting next week (Mar 7) due to RSA, but we have two more chances to meet before IETF 104.

Interop testing and Identiverse

Andi and Eve will meet, hopefully next Sunday morning, to discuss putting together an Identiverse "showing off the results of UMA interop testing" session. Gluu has shipped its Gateway and we could potentially use that for a "standardized" RS component in order to test AS functionality. There seems to be interest in sufficient quarters. Most implementations don't support interactive claims gathering so we could just test pushed claims for now.

High assurance of the RO to the RqP

- If time and Peter is available

Deferred.
