[Alignment with SP 800-63 - Discussion](#)

Discussion of 6.3.1.1.2.c (RAF32)

Discussion of 5.3.1.3.9 (RAF16)

- IAF Ticket required: Examination of how credentials could be used at registration time to achieve higher AL requirements. e.g. Register with an LOA2 credential at an IDP and also provide additional information to get to LOA3 at that IDP. Suggest that this is a recognized practice with some IDP but is not explicitly permitted in SP800-63-2. Analysis needed to determine if SAC need to be changed.

Wilsher and Furr will discuss Disposition of other comments in separate meetings.

Could you please ensure this is entered as a change request for the AAS officially?

Thank you!
