

WG - Consent Management Solutions Home

This is the home of the space.

This Consent Management WG operates under the [Kantara Initiative IPR Policy - Option Non-Assertion Covenant](#)

[JOIN THE CONSENT MANAGEMENT SOLUTIONS WG](#) | [SUBSCRIBE](#) | [MAILMAN ARCHIVE](#)

Consent Management Solutions are used to manage the full lifecycle of an individual's consent for the processing of their personal data. That consent needs to be: freely given, specific, informed, unambiguous and layered. **Read the full [charter](#).**

About Kantara's Consent Management Solutions Work Group (CMS WG)

CMS WG was created by the Kantara Initiative with the goal of providing more clarity and an industry-developed common practices guideline document around consent and privacy policies for use by organizations that manage and use large amounts of identity information and data. The guidelines will be industry-vetted and lead to the formation of established standards and a certification program.

These work group outputs will help organizations meet new stringent regulations around personal identity and private information. In keeping with Kantara's mission of an open, participatory industry association model, all organizations and individuals involved in the consent, identity and privacy are welcome to join the CMS WG.
