

# WG - Liberty Spec Maintenance - Home

This is the home of the Liberty Spec Maintenance Work Group.

**This Work Group operates under the [Kantara IPR Policy - Option Patent & Copyright: Reciprocal Royalty Free with Opt-Out to Reasonable And Non discriminatory \(RAND\)](#)**

The ultimate goal of the Liberty Specification Work Group will be to maintain the Liberty ID-FF, ID-SIS and IGF specifications such that they are a ubiquitous, interoperable, privacy-respecting Identity Layer for the Internet. As this Work Group is scoped for maintenance the group will develop no new technical specifications. The group will develop errata where appropriate as driven by the Work Group members, members of other Kantara Initiative Work Groups or requested by the general public.
