

Privacy Framework Sub-Committee

This Privacy Framework sub-committee was formed to explore the development of a Privacy Framework that would provide guidance to services looking to improve privacy protections for it's users. The sub-committee is working on a draft document to submit to the P3WG body as a whole for evaluation, comment, and acceptance as a WG Report.

Status: Working on a whitepaper that describes the need for and requirements of a generalized Privacy Framework that can be applied within a global context.

Participants:

- Robin Wilton
- Colin Soutar
- J. Trent Adams
- Christine Runnegar
- Mark Lizar
