	Adjourn	Chair	<b>Next WG meeting Wednesday, October 3, 2018 10:00 Eastern Daylight Time / 15:00 BST</b>

From 2018-09-05 meeting:

<https://martechtoday.com/two-french-location-data-companies-receive-gdpr-consent-warnings-223467>

<https://www.dandodiary.com/2018/08/articles/securities-litigation/investors-filed-gdpr-related-securities-suit-nielsen-holdings/>

- Idea: Blog post on "What happened to Consent?"
- Differences between authorization, permissions and consent
- Shareholder lawsuit coming up re impacts of GDPR to bottom line
- Need to treat 'Consent' as a Product & do product management approaches to grow the market
- Setup for podcasts or Brighttalk summits
- Consentua is in the Gartner hype cycle map for 2018
  - Gartner positions this in their Integrated Risk Management sphere
- Question is: how can you use this new dataset called "Consent Receipt" how can the company make more money/satisfy the customer
  - Hard to pin this down
- Is the killer app around interoperability of the receipt records? or portability of the records themselves? how does this play out on the platform?
  - How does consent record/receipt work in a long term customer management scenario (possibly this is consent practices)
  - How does this play out with respect to industry associations code of conduct? (possibly consent receipt)
