Alan Walsh, Indiana University
Hal Lockhart, Oracle (observing)
Dervla O'Reilly, Kantara Initiative
Joni Brennan, Kantara Initiative

Apologies

None

Agenda

1. Authorization Use Cases Submission
2. AOB

Minutes

1. Authorization Use Cases Submission

Summary:

- Build a conceptual model, similar to IAF 800-63, the group would like to start an authorization framework as a long-term project. Taking the XACML use cases from today as well as others, build a list of technological gaps. Is there a role for a higher level of authorization language that hasn't been worked on yet? If not, let's include that. Does it make sense (similar to authentication (Authn/Authz built for Burton) to build upon this?
- There is a concern that some time has passed since the Burton Identity Group was active. As there are newly formed and active DG/WGs (e.g. Concordia DG), we should look at possible overlaps in mandate.

Next Meeting

- **Date:** Tuesday, June 8, 2010
- **Time:** 9am PDT | 12 EDT | 15:00 UTC | 18:00 CEST_([Time Chart](#))_Teleconference Info:
