Step 3

It is important that you log in at least once so your new account gets created in the Wiki. Please navigate to: <https://kantarainitiative.org/confluence/plugins/servlet/samlSSO?redirectTo=%2F> and select the option "Kantara Initiative":

The screenshot shows a web interface for selecting an identity provider. At the top left, there is a 'kantara' logo and a 'Spaces' dropdown menu. The main heading is 'Select Identity Provider'. Below this, a message reads 'Please select the organization you are affiliated with:'. A list of options follows, with the first option, 'Kantara Initiative For most Kantara users', highlighted in yellow. The other options are: 'unitedID.org For unitedID.org users', 'Clemson For Clemson users', 'indiana.edu For indiana.edu users', 'Internet2 For Internet2 users', 'TERENA For TERENA users', 'uchicago.edu For uchicago.edu users', 'The University of Memphis For users of the University of Memphis', and 'Kantara Europe For Kantara Europe users (for Kantara US please use the first link in the list)'.

Then log in with your new credentials that you have just registered.

Step 4

Important: At this point you have *only basic access* to the Wiki. To get *full access* to your Work and/or Discussion groups please [send us a quick message](#) with your new user name. We will then fully provision your account.

If you sign up for additional Work or Discussion groups in the future, then please [send us an email](#) so we can add the permission for these new groups to your existing account.
