Kolin Whitley, Experian

Colin Wallis, KI

Ruth Puente, KI

### Key discussion items

#### *Kantara IAWG Update*

- Service Assessment Criteria version 4.6.0 is under member review until July 17<sup>th</sup>.
- IAWG is working on criteria for privacy.
- The IAWG meets biweekly, so they have decided to use the off-week time slot for an informal discussion group regarding NIST SP 800-63-3. First meeting was on May 26<sup>th</sup> to discuss the new release of 800-63 and its potential impacts. The ad-hoc discussion group is not submitting comments; the IAWG encourages the participants to make comments as individuals. Kantara comment process for formal feedback will probably be in the fall.

#### *FICAM Update*

- They plan to reach out to Trust Frameworks and have different proposals for a possible more streamline process to help getting services that are compatible and comparable for government standards. Also, they are planning a workshop together next month or the month after.
- They are dedicated to make the process simpler showing comparability and helping services get utilized by government agencies.
- Profiling work: SAML profiles that are in use get them updated and align back into e-Gov profile by end of this fiscal year.
- In relation to Open ID connect profiles in addition to SAML profiles they will be following everybody's leads.

#### *SAFE Update*

- They had a call with members to collect comments on 800-63-3 and they might consolidate the comments with the other TFPs.
