Minutes

Roll call

- Quorum: no

Approve minutes

- Approve minutes of [UMA telecon 2021-09-09](#), [UMA telecon 2021-09-16](#)
 - Deferred

Privacy as Expected

- Site: privacy-as-expected.org
- From above page: PaE:CG [*Privacy as Expected: Consent Gateway*] is a project funded under NGI TRUST from OCT-2020 to JUN-2021 that will provide an end-to-end, user-centric, comprehensive, open source solution to managing Consent for Personal Data. The key deliverables are open software, a public demonstrator, real-world trials, and publications.

Eve:

- Me2B is coming out
- Perhaps have an expert join us one week
- <https://me2ba.org>
- Nancy: seems like there is a lot of redundancy in terms of orgs doing similar things
- NGI Trust: NGI == Next Generation Internet
- Respectful Tech : Spec in final review under me2b org as a WG

Delegation:

Nancy:

- Has anyone done an implementation of UMA on delegation
- <https://patientcentricsolutions.com/resources>

Peter: Is [Alec L](#) working on this?

Steve: Analysis of Okta OSS implementations: "[Delegate](#)" and "[Managed Access](#)"

Eve/Nancy: UMA Legal and business Business-legal Framework and Use Cases

- Trying to separate resource rights administrator from data subject

Nancy: PP2pi (Protecting Privacy to Promote Interoperability Workgroup)

- www.drummondgroup.com/pp2pi

- Soliciting participation in these WG's
- Use cases span medical data with other services – ex; Disabled person looking for a job

Action Item(s)

- Eve: Convert the legal use cases doc and publish; demote out of date related stuff; cleaning up legal-type topics on WG wiki

Need an analysis of the PP2pi use cases

- this is a layer above UMA. Example:: graph for policy

Ref Sovrin whitepaper: <https://sovrin.org/wp-content/uploads/Guardianship-Whitepaper2.pdf>

- Eve: Can we make a forcing function out of this: e.g., a report that analyses these use cases w.r.t. UMA
- Mostly useful for scraping terminology
- Finish by end of November?

Delegation: lots of nuance : see UMA Legal role slides

Eve: World of RUFADAA: Revised Uniform Fiduciary Access to Digital Access Act

- <https://www.nolo.com/legal-encyclopedia/ufadaa.html>
- Most of the states have adopted this, but not exactly
- Again, how do we relate this to UMA
- Steve: Reference: <https://www.uniformlaws.org/committees/community-home?CommunityKey=f7237fc4-74c2-4728-81c6-b39a91ecdf22>

Sal: that is what we are working on in ANCR and the associated record that is created when RO starts discovery on first contact

Eve; We should use these secondary sources as we develop glossary, as well as how the use cases align (or don't) to UMA use cases.

- Also a concordance of use cases

Action Item(s)

Future UMA mtg: Need a discussion on document development: methods. GDocs/etc. is problematic

- Peter: Maybe Kantara's github?
- Use markdown?

Ontario's Digital Identity Program

Link to document: <https://www.ontario.ca/page/consultation-policy-framework-ontarios-digital-identity-program>

- Alec (previous week's notes): Feel free to submit comments to Ontario about the DI strategy
- We did a shallow review of doc, but we should figure out if any of it is relevant to UMA?
- Sal: put big comment around consent receipts;

Eve: proposing topic on defining "delegation" and associate

Action Item(s)

Future mtg: ANCR records update, probably 30min; maybe two or three weeks out
