Our Mission: To grow and fulfil the market for trustworthy use of identity and personal data.

Our Vision: To see equitable and transparent exchange of identity and personal data for mutual value

Kantara Initiative is a unique global 'commons' that operates conformity assessment, assurance and grant of Trust Marks against de-jure standards under its Trust Framework program whilst in parallel nurturing 'beyond-the-state-of-the-art' ideas and developing specifications to transform the state of digital identity and personal data agency domains.
