1. Discussion of Connect profile

Connect going final at RSA Last week of Feb.

JOSE in last call.

GSMA is developing a profile of Connect it would be good to have it converge with a Higher LoA profile.

2. Meta-data service

Ping is working with OIX to demo a multi tenant meta-data management service at RSA.

3. Rainer had a question around validation of certificate chains.

Meeting adjourned at the 57min in.
