- Roll Call  
Quorum  
Move adopting minutes Jan 19.  
Approved minutes Jan 19.

#### 1 Profile

New Copyright agreement updated in the doc.

Scott had proposed a change around logout, waiting to discuss Reiner's comment.

Mostly word smithing left but mostly ready.

#### 2 SAML2Int/Deployment profile

Still waiting for editing cycles.

Logout would be new functionality.

Looking at breaking up logging out of the IdP from logging out from the SP.

Proxying adds complexity for logout, the spec may not be sufficient for interoperability.

Discussion on SP treating persistent identifiers as case identifiers as case insensitive and causing collisions.

Call ended at 55 min.
